Civil War Patriotic Tokens

1 - 1/359 b R8 PCGS MS64 30% Bright with a thin planchet crack visible at 12 o'clock on reverse only. 1863 Turban Head Not One Cent struck in Brass. From the Dave Bowers collection. Data: 20°, 46.1 grains, 19.5 mm. (200-300)

The sixth example we have seen offered. From the Robert Williams collection. (200-300)

20 - 57/185 do R9 NGC MS62 Struck over an 1859 Indian Head Cent with much detail plainly visible. 1862 Indian Head with Bull reverse struck in Copper Nickel over a US Cent. Very rare die in the Patriotic series, only used on this and the Copper variety of the same die combination and though it is called R8, it is also likely a R9. From the Mark Glazer collection and so noted on the NGC holder. Picture on page of the current Patriotic book. (6000-8000)

21 - 57/467 a R7 NGC MS63 RB 30% Red with very nice cartwheel luster. The Federal Government, A National Currency, Free Trade and Human Rights 1862. Two rare and underrated dies, just the fifth example of this variety we have seen offered and not included in the Tanenbaum collection. An EF+ sold for $1,020.54 in our November 2004 sale. From the Mark Glazer and Jack Detwiler collections, the Glazer pedigree is so noted on the NGC holder though called 57/473 in error. (2000-3000)

22 - 58/58 a R10 NGC AU55 BN Single Die Doubleheader. 1863 Indian Head signed L. Roloff large 24mm Single Die Doubleheader struck in Copper and believed to be Unique. One of the rarest types of Civil War tokens and a specialty of Patriotic token collector Mark Glazer who assembled the largest collection of these by far. These are normally thought to be the work of idle hands at the manufacturer. A token was struck uniface against another blank planchet or smooth surface then flipped over and struck again in the same manner. This usually results in the side first struck being somewhat squashed or distorted as on this example. They can also result from an odd set of striking errors which would normally result in the same type of appearance. We sold a NGC XF45 example of the equally rare 87/87 in our July 2014 sale that realized $1,485 in spirited bidding. From the Mark Glazer collection and so noted on the NGC holder. (1500-2000)

150 - 332/336 a R4 NGC MS62 RB 30% Red. Our Army / Our Navy. Scarce die combination, particularly this nice. (100-150)

151 - 332/336 d R7 NGC MS64 60% Bright. Likely struck on a filed down US Copper Nickel Cent with file marks visible on and near rims, though no undertype is visible. Our Army / Our Navy struck in Copper Nickel. A somewhat underrated variety. From the Robert Williams collection. (300-400)

152 - 425/425 a R9 NGC MS64 BN 10% Red. Single Die Doubleheader. 1863 within wreath Single Die Doubleheader. One of the rarest types of Civil War tokens. These are normally thought to be the work of idle hands at the manufacturer. A token was struck uniface against another blank planchet or smooth surface then flipped over and struck again in the same manner. This usually results in the side first struck being somewhat squashed or distorted as on this example. They can also result from an odd set of striking errors which would normally result in the same type of appearance. Very rare die in the Patriotic series. We sold an NGC XF45 example of the equally rare but of a much more common die 87 in our July 2014 sale that realized $1,485 in spirited bidding. From the Mark Glazer and Larkin Wilson collections, the Glazer pedigree is so noted on the NGC holder. (2000-3000)

Civil War Patriotic Tokens

153 - 427/480A a R9 NGC AU55 BN Sharply struck with none of the problems that often plague this issue. A raw VF+ example of the -1b variety sold for $1,000 in our December 2016 sale. Union C 1863 with Eureka Good For 10. Two rare dies particularly the reverse. Very rarely seen above VF and many have some sort of problem, mainly stray counterstamps. We sold a similar raw piece in our August 2015 auction which realized $450. From the Tampa and Steve Tanenbaum collections. (1000-1500)

154 - 444/452A b R9 NGC AU50 BN An arrangement of fruit surrounded by stars while the reverse features 10 CENTS also surrounded by stars struck in Brass. The only use of die 452A in the Patriotic series and quite rare. The plate for this die in the current Fuld Patriotic book is actually a picture of store card. The picture was borrowed from plates used in Fuld's Store Card book as close study of the two will indicate. When we last offered this example nearly 20 years ago it caused quite a stir and brought $7,001 with spirited bidding in our April 2000 auction. Another example or two have turned up since, so it likely will not bring that much but it is still the finest know. From the Mark Glazer, Larkin Wilson and George Fuld collections, the Glazer pedigree is so noted on the NGC holder. (3000-4000)

156 - 520/521 a R7 NGC AU53 BN An unusually high grade example, a bit unevenly struck as often seen on this variety. Liberty 1860 Copper Mine Token. Crude Escherich token often seen uneven, clipped with marks and scratches. This is much better than average. A raw VF slightly porous with uneven strike and light marks brought $525 in our July 2012 auction. From the John J. Ford collection Stack's Bowers August 2013 where it realized $763.75. The Ford pedigree is noted on the NGC holder. (500-750)

512 - MILLER NY 59 NGC MS64 PL Proof Like. American Museum P. T. Barnum Proprietor New York with building and bust of Barnum and list of attractions, Admission To The Whole Only 25 Cents struck in White Metal. This die combination has been included in the Civil War Store Card book as a possible Civil War Token based on an April 1862 auction appearance though there is currently no proof it was not struck before the War. We sold a Raw MS63 PL White Metal example for $750 in our August 2015 auction. Rulau NY-NY 11. From the James McClure collection. (1000-1500)

513 - MILLER NY 474A NGC MS65 RB 40% Red more so on the obverse. Loder & Co. 130 Broadway, New York struck in Copper with Plain edge. We have yet to see the two address mules listed by Adams, Miller and Rulau as NY 474 and NY 475, these listings are likely in error. This example is called NY 478 by NGC and should have an "&" rather than "AND"; this is likely an erroneous duplicate listing. From the James McClure collection. (200-300)

514 - MILLER NY 815 NGC MS62 20% Bright. Jas. S. Smith & Co. Military Goods, New York with a military hat struck in Silvered Brass with Plain edge. Only listed in Silvered Copper but all we have seen appear to be Brass. (100-150)

515 - MILLER NY 832 NGC MS63 Trace Bright toned. Lewis L. Squire & Sons Ship Chandlers, New York struck in Silver with Plain edge. Silver merchant tokens in general are quite rare. From the John Ford collection. (400-500)

516 - MILLER NY 923 NGC AU58 Trested Fecit Six Cents struck in Brass with Reeded edge. Very rare merchant, particularly this nice. From the Steve Dabney and John Ford collections earlier from Stack's Bowers February 2014 sale where it realized $587.50. (500-750)

517 - RULAU NY NY 395B NGC MS64 PL 30% Bright and Proof Like. 1877 US Grant Civis Londiniensis token designed by Isaac F. Wood with die by George Hampden Lovett struck in Brass with Plain edge. Evan's & Watson Makers Dickeson's Coin & Medal Safe, Philadelphia with Robert Lovett's George Washington Security on reverse struck in Silvered White Metal with Plain edge. Apparently scarcer than the Copper variety and known in Silvered as well as Non Silvered White Metal. In NGC holder as Rulau Pa Ph 33. Baker 530D From the Mark Cramer collection. (150-200)

524 - MILLER PA 151 NGC MS65 BN 20% Red. Evan's & Watson Makers Dickeson's Coin & Medal Safe, Philadelphia with Sommer Islands Shilling and Hog on reverse struck in Copper with Plain edge. 525 - MILLER PA 217 NGC MS66 BN Trace Red. W. Idler Dealer In Coins & Medals, Philadelphia. Made to resemble a 1659 Lord Baltimore Penny struck in Copper with Plain edge. Listed on the NGC holder as PA-223/PA-217 an understandable choice given Rulau's confusing listings and poorly placed photos for this merchant; we choose to use Adams and Millers listings. We sold an NGC MS62 RB in our January 2016 sale for $115. From the Mark Cramer collection. (500-750)

526 - MILLER PA 230 NGC MS62 10% Bright toned with full silver plating. W. 527 - MILLER PA 230 NGC UNC Details 40% Bright and nearly Proof Like but with a few light marks. W. Idler Dealer In Coins, Minerals, Shells, Antiques, 111 N. 9th St., Philadelphia struck in White Metal with Plain Edge and George Washington reverse. This variety comes in both Silvered and Non Silvered White Metal, so far by our count they are of similar rarity. Baker 545D From the Mark Cramer collection. (75-100)

528 - MILLER PA 230B NGC MS64 20% Bright. W. Idler Dealer In Coins, Minerals, Shells, Antiques, 111 N. 9th St., Philadelphia struck in Nickel with Plain edge and George Washington reverse. A raw MS62 brought $150 in our February 2014 sale. Baker 545C From the Mark Cramer collection. (400-500)

529 - MILLER PA 230F NGC UNC Details 30% Bright. The NGC holder notes Obverse Damage and while there are a few small spots and a few light marks none seem serious to call Damage.
